**WE'VE GOT YOU COVERED!**

As the leading infection control provider to the Veterinary market, we are pleased to offer you this discounted start pack to enable you to assess the benefits of our range. Our lead product VETGEL as a waterless surgical hand rub that can be used for surgical hand disinfection or for intermediate use between patients and is effective in 1 minute against viruses, fungi and bacteria. We also supply the VETSCRUB range of surgical soap scrubs containing Chlorhexidine gluconate and Triclosan (a moisturising formula for those with sensitive skins) as well as CHEMGENE Alcohol Gel Tottles for belt / clothes of cage attachable use.
